

CareCoordination

CHR believes it takes a **community of support** to help children in need. We are here to help make that happen.

Finding services and support for children with emotional and/or behavioral difficulties does not have to be a confusing or complicated. CHR's Care Coordination helps families access community-based supports. By identifying families' goals, our coordinators work with families to develop both individual and family-focused care plans that fit each child's unique needs. We provide wraparound services that are strength-based, family-driven and culturally competent. Our Child and Family teams arrange for services, coordinate care, provide follow up and advocate on behalf of the children and families we serve. Our goal is to keep children in their homes and communities, which is where they belong.

WHO WE HELP

CHR's Care Coordination serves children ages 0 – 18, or up to age 21 if they are still receiving education services. Eligible children have been diagnosed with an emotional or mental health disorder and are:

- At risk for being placed out of home or at a higher level of hospitalized care
- Transitioning from a higher level of care back into the community
- Having difficulty functioning in family, school or community activities
- Involved with multiple agencies, and in need of Care Coordination independent of any particular services received due to the complexity of the case
